Description
This programme is supported by SIAL (Laboratory Animal Integrated Service) and by the Universitat Autonoma de Barcelona Veterinary School Residency Programme. SIAL integrates staff and services from several university departments and the Laboratory Animal Facility.
Training includes the “Master en Ciencia y Bienestar del animal de Laboratorio" (Master in laboratory animal science and welfare) accredited by FELASA and covers rodents, rabbits, dogs, ruminants, primates and non-mammalian species.
Residents receive ‘hands on’ training by working under the supervision of Resident Advisors or other specialists in
3 units at the UAB
UAB Animal Housing Facility,
Health Monitoring Unit
Centre of Animal Biotechnology and Genetic Therapy
and in
3 external units
Anaesthesiology and Surgery Unit from Madrid Veterinary School,
RCC CIDA in Barcelona and
Department of Animal Reproduction, INIA, Madrid.
